OUR GUARANTEE

On All Trees, Shrubs And Evergreens

Does Not Include Roses, Perennials or Small Fruit Plants

We guarantee stock to be just as represented, and must reach you in good growing condition or orders will be refilled free, providing reports are made within ten days after receipt of goods. After ten days, it is mutually agreed that stock is satisfactory.

All stock is nursery grown, and State inspected, but continued growth depends upon soil, climatic conditions, planting and care — conditions beyond our control. We will, however, replace plants at half price if reports are made during current season. It is mutually agreed that in any event we will not be liable for more than purchase price of stock.

PRICES QUOTED ARE NET, F.O.B. NURSERY, AND SUBJECT TO CHANGE WITHOUT NOTICE

SALES TAX - All orders are subject to an additional 2½ per cent State Tax.

SHIPPING SEASON - Our Spring shipping season usually begins early in April and until about the first of June everything can be transplanted. Perennials and stock dug with a ball of earth can be moved at any time during the Summer. Our Fall season starts with the digging of evergreens in August, followed in October by Deciduous trees and shrubs.

Plants personally selected in the field at the nursery are priced 20% additional.

ALL DELIVERY AND PLANTING CHARGES AT COST.

EVERGREENS

ARBORVITAE

Globe Arborvitae

Arborvitae, Globe—This dwarf variety is of very dense compact growth. Maintains a natural globe shape without trimming. Grows very dense and round, is admirably adapted for foundation planting.

Each	
12"x12"	\$3.00
15"x15"	3.50
18"x18"	4.50
24"x24"	5.50

Arborvitae, American—One of the most valuable of our native evergreens. It thrives in a moist situation. Fine for windbreaks, and for ornamental hedges, as it shears well and makes a very dense hedge.

Each	
2 to 3 feet	\$4.50
3 to 4 feet	6.00

Arborvitae, Pyramidal—A dwarf variety of compact growth and very narrow upright habit. Has a deep green color. Hardy everywhere except in dense shade. Splendid for formal plantings.

Each	
24 to 30 inches	\$4.00
30 to 36 inches	5.00
3 to 3½ feet	6.00
3½ to 4 feet	7.25
4 to 5 feet	8.50
5 to 6 feet	10.00

Arborvitae, Siberian—Hardy variety, somewhat similar to the American Arborvitae, being much heavier and more deeply crested. Branches short and stiff, of slow growth, being classed with the dwarfs. Is conical in outline. This variety is used extensively for background in foundation plantings where dense bushiness is required rather than height.

Each	
24 to 30 inches	\$5.00
30 to 36 inches	6.00
3 to 3½ feet	7.00
3½ to 4 feet	9.00
4 to 5 feet	11.00

Arborvitae, Oriental Pyramidal—An erect grower which has the characteristic flat fan type foliage of the oriental strain. Dense and compact in habit and very hardy.

Each	
30 to 36 inches	\$6.00
3 to 4 feet	7.50

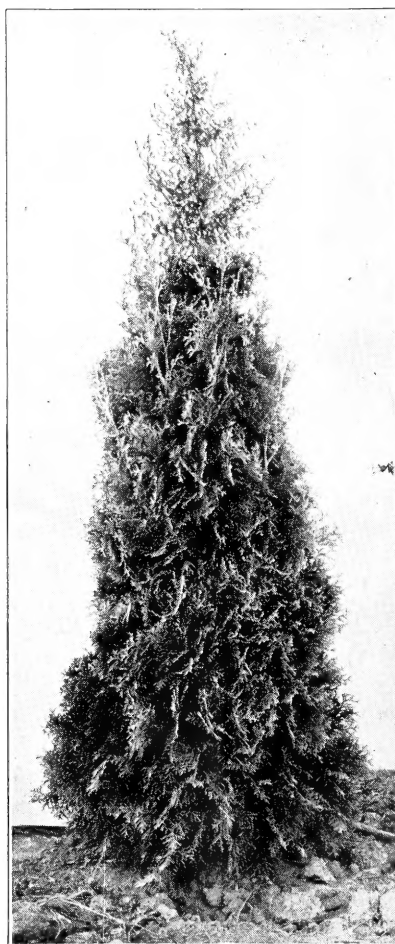

Arborvitae, Oriental—An introduction from China which has proven very hardy. Has flat fan type foliage with rich green color. A strong, rapid grower which can be used as windbreaks or sheared to landscape specimens.

Each	
3 to 4 feet	\$5.50
4 to 5 feet	7.50

FIR

Pseudotsuga taxifolia (Douglas Fir)—It is a rapid grower and has long graceful branches, less still than spruce. Foliage is soft, flexible, and fragrant. Will grow almost anywhere and stand adverse conditions.

Each	
18 to 24 inches	\$3.50
2 to 3 feet	5.00
3 to 4 feet	8.00

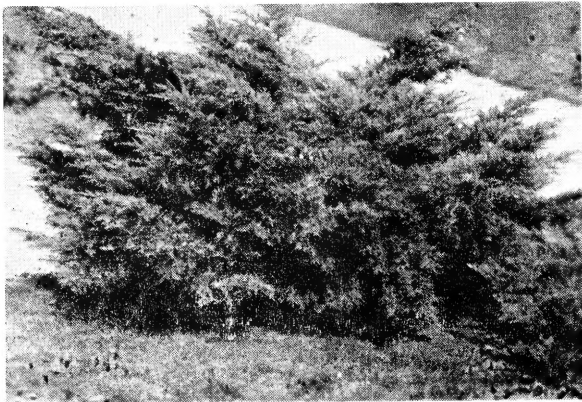

Pyramidal Arborvitae

JUNIPER

Juniperus chinensis (Chinese Juniper)—This variety was introduced by the U. S. Dept. of Agriculture. It originated in China. It forms a very narrow pyramid with all leaves needle shaped, foliage steel-blue. One of the hardiest evergreens. Each

30 to 30 inches	\$4.00
3 to 3½ feet	5.00
3½ to 4 feet	6.00

Pfitzer Juniper

Juniperus chinensis pfitzeriana (Pfitzer Juniper)—Low, irregular, spreading, vase-shaped of bush form, with dense gray-green foliage of soft feathery appearance. Extremely hardy, and will grow anywhere. Very valuable for foundation and group plantings. Each

12 to 15 inches	\$4.00
15 to 18 inches	5.00
18 to 24 inches	6.00
24 to 30 inches	7.50
30 to 36 inches	10.00
3 to 3½ feet	12.50
3½ to 4 feet	15.00

Juniperus chinensis pfitzeriana (Upright Trained)—Same as spreading Pfitzer except it is trained by stake to grow in an upright pyramidal cone. Very effective when used with the spreading form. Each

2 to 3 feet	\$ 7.50
3 to 4 feet	10.00

Juniperus chinensis pfitzeriana nana (Dwarf Pfitzer)—This plant differs from the regular Pfitzer in that it is much slower growing, the foliage is finer in texture and has a light green color. Can be used in more confined places than the regular Pfitzer. Each

18 to 24 inches	\$7.00
24 to 30 inches	9.50

Juniperus communis hibernica (Irish Juniper)—Dwarf growing Juniper of very upright, dense, columnar habit, with bluish-green foliage. Makes a narrow column. Each

24 to 30 inches	\$3.50
30 to 36 inches	4.50
3 to 3½ feet	5.50
3½ to 4 feet	6.50
4 to 5 feet	8.50
5 to 6 feet	10.00

Juniperus horizontalis plumosa (Andorra Juniper)—A low-growing, spreading dwarf evergreen that is excellent for terrace and rock garden plantings. Foliage is a blue-green in summer and orchid in winter. Each

15 to 18 inches	\$5.00
18 to 24 inches	6.50
24 to 30 inches	8.00

Juniperus excelsa stricta (Spiny Greek Juniper)—A native of Greece, forms a tall, dense, narrow, conical shape tapering gradually from the ground to a sharp terminal point; fine glaucous color with very close-growing needles. Each

15 to 18 inches	\$4.00
18 to 24 inches	5.50
24 to 30 inches	7.00
30 to 36 inches	8.50
3 to 3½ feet	10.00

Juniperus hetzi—A new semi-upright spreading evergreen introduced by a Pennsylvania nursery, which has proven very hardy and is a very strong grower. Foliage is a fresh blue-green color. Develops with a higher spread than the regular Pfitzer type. Each

18 to 24 inches	\$7.50
24 to 30 inches	8.50

Juniperus hetzi (Upright Trained)—Same as spreading form but trained to upright shape. Very effective when used with Hetzi spreader. Each

3 to 4 feet	\$7.50
4 to 5 feet	10.00

Greek Juniper

Juniperus horizontalis douglasi (Waukegan Juniper)—A trailer of low dense habit, covering the ground while not growing over six inches in height. The color of the foliage is a soft blue. Each

15 to 18 inches\$5.00

Juniperus meyeri (Meyer Juniper)—It is an attractive form of irregular habit, with short, straight branches. The foliage is plump, pointed and prickly, is concave on the upper side and shiny blue color. It is a slow-growing variety which thrives to best advantage in a sunny location. Each

12 to 15 inches\$3.00

15 to 18 inches5.00

18 to 24 inches6.00

Juniperus sabina (Savin Juniper)—A low, much branched, spreading shrub 2 to 3 feet in height; its branches well supplied with short, straight, tufted branchlets, which are well covered with dark green foliage. Each

15 to 18 inches\$3.75

18 to 24 inches5.00

24 to 30 inches6.50

Juniperus sabina tamarisifolia (Tamarisk Juniper)—A low form of the Junipers, spreading habit, and is noted for its excellent green winter color. Very hardy and popular wherever grown. Each

15 to 18 inches\$5.50

18 to 24 inches7.00

24 to 30 inches8.50

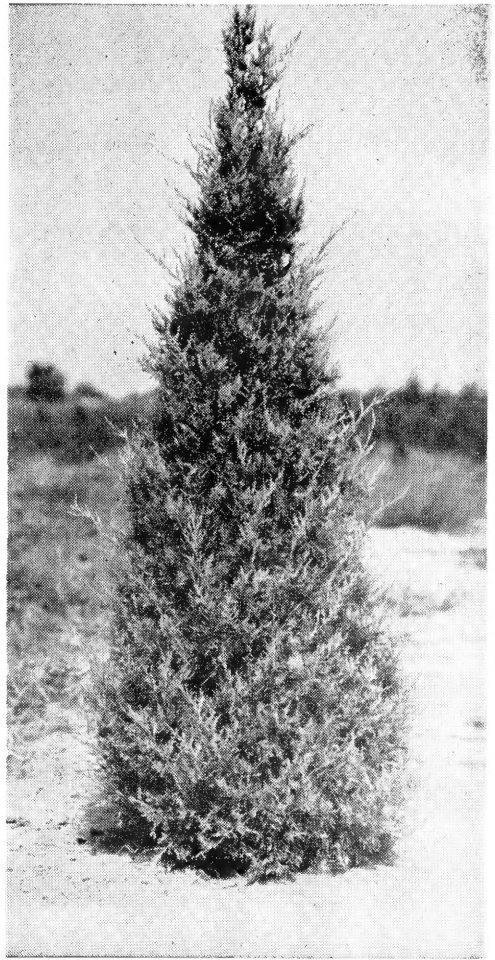

Juniperus squamata (Procumbens or Japanese Juniper)—One of the best prostrate evergreens. Never grows over 12 inches in height, spreads slowly, and has a rich blue-green color during all seasons. Each

15 to 18 inches\$5.50

18 to 24 inches7.00

Juniperus squamata nana (Dwarf Procumbens Juniper)—Same as above but grafted to insure dwarf minute growth seldom more than 6 inches in height. In a class by itself for diminutive beauty. Each

10 to 12 inches\$6.00

Red Cedar

Juniperus virginiana (Red Cedar)—A well-known evergreen or compact pyramidal growth. The dense foliage is a bright bluish green when fresh, maturing to a deep bronze-green during the winter. It can be trimmed in any desired shape or form, and is used a good deal in topiary work. Each

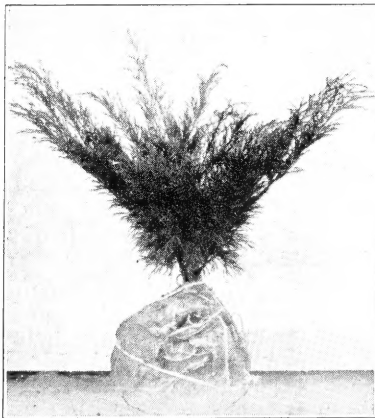

24 to 30 inches\$3.50

30 to 36 inches4.50

3 to 3½ feet5.50

3½ to 4 feet6.50

4 to 5 feet7.50

Savin Juniper

GRAFTED JUNIPERS

Juniperus virginiana cannarti (Cannart Juniper)—The most popular of the cedars, having a rich green foliage, keeping a fine green winter color. It makes a pyramidal specimen of medium growth. Most trees bear blue berries in the fall. Each

2½ to 3 feet\$ 8.00

3 to 3½ feet\$10.00

3½ to 4 feet11.50

4 to 5 feet14.00

5 to 6 feet16.50

Juniperus virg. keteleeri (Keteleers Juniper)—Has a compact formal outline, making a thick, dark green pyramid. The branchlets, disposed regularly along the branches, are more fleshy than in most Junipers. Has large berries in fall.

Each	
4 to 5 feet	\$12.50
5 to 6 feet	15.00

Juniperus virg. pyramidiformia hilli (Hills Dundee Juniper)—One of the most interesting of the new evergreens. Foliage is a bluish-green in spring and summer, changing to plum-like color in the fall and winter. Grows dense and formal without much shearing.

Each	
30 to 36 inches	\$ 9.50
3 to 3½ feet	11.00
3½ to 4 feet	12.50
4 to 5 feet	14.00
5 to 6 feet	17.50
6 to 7 feet	22.50

PINES

Pine, Austrian—Very hardy growing, with massive needles 6 to 10 inches long of deep green color on the surface and bluish-white underneath. Habit of growth tall and well rounded. One of our outstanding specimen trees.

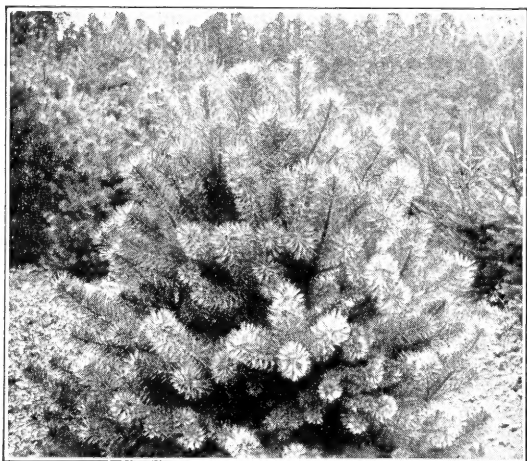

Each	
2 to 3 feet	\$ 5.00
3 to 4 feet	7.50
4 to 5 feet	10.00
5 to 6 feet	15.00

Pine, Dwarf Mugho—A dense, low, round, shrub-like Pine of dark green foliage, extremely slow growing. Fine for planting in front of other trees.

Each	
12 x 12 inches	\$3.75
15 x 15 inches	5.50
18 x 18 inches	6.50
24 x 24 inches	8.50

Pine, Norway—Native of Northern Minnesota and one of the best timber pines. Needles average 6 inches in length, and are deep green in color. Strong grower and recommended for screening and windbreaks.

Each	
2 to 3 feet	\$4.50
3 to 4 feet	6.50
4 to 5 feet	9.00

Austrian Pine

Pine, White—Hardy ornamental Pine of very rapid growth. Leaves soft bluish-green, long and slender. Easily moved by the slightest breeze, so that a constant sighing and moving is kept up, which has long been the theme of the poets.

Each	
18 to 24 inches	\$3.00
2 to 3 feet	4.75
3 to 4 feet	7.00
4 to 5 feet	9.50

Pine, Scotch—A valuable timber tree of Northern Europe, familiarly known in Scotland as "Scots Fir." It is one of the fastest growing of the Pines and makes a very beautiful tree while young. A very hardy, rugged, picturesque tree.

Each	
2 to 3 feet	\$4.00
3 to 4 feet	6.00

SPRUCE

Colorado Blue Spruce

Spruce, Black Hills—For many years, this Spruce has been a favorite due to its compact and symmetrical growth, even in very small trees. Its foliage varies from green to bluish tint. It should be planted where it has sun most of the day.

Each	
15 to 18 inches	\$2.75
18 to 24 inches	3.50
24 to 30 inches	4.75
30 to 36 inches	6.00
3 to 3½ feet	7.50
3½ to 4 feet	9.00

Spruce, Colorado—A great majority are of greenish cast with a slight bluish tendency. The blue color is more pronounced during the late spring and summer months. About 10% are blue enough to be called Colorado Blue Shiners. (For these selected trees we charge double the following prices.)

18 to 24 inches	\$4.00
24 to 30 inches	6.00
30 to 36 inches	7.00

Spruce, Dwarf Alberta—One of the most interesting oddities among evergreens. It is of extremely narrow pyramidal growth, thickly covered with short, close set twiggy branches and clothed in grass-green needles. Some of the oldest trees we have are 30 years old and only 4 feet high. It prefers a partially shaded, rather moist location. Each

12 to 15 inches	\$4.50
15 to 18 inches	6.50

Spruce, Norway—Large, fast-growing tree of Northern Europe, very symmetrical and of pyramidal habit, dark green foliage, often with drooping branches. Its extreme hardiness and adaptability to all situations make it a most valuable tree when planted for shelter and screen, as well as a single lawn specimen. Fine for windbreaks. Each

18 to 24 inches	\$3.50
2 to 3 feet	5.00
3 to 3½ feet	6.00
3½ to 4 feet	8.50

Spruce, Koster and Moreheim Blue—The grafted form of the blue Spruce is the true aristocrat of the evergreen family, by far the shapeliest Spruce and the truest most persistent blue color of any known tree. In June and July these trees appear to shine when in full sun. Each

24 to 30 inches	\$20.00
4 to 5 feet	65.00
5 to 6 feet	85.00
6 to 7 feet	125.00

FALSECYPRESS

Falsecypress, Sawara—A beautiful hardy evergreen from Japan, with soft feathery foliage, with drooping branches. They are similar to the Arborvitae but far more exotic and have finer texture of foliage. Each

4 to 5 feet	\$12.50
5 to 6 feet	15.00
6 to 7 feet	20.00

Falsecypress, Greenthread—With thread-like foliage of a bright green color, low spreading habit, very dwarf and exotic. Each

12 to 15 inches	\$3.00
15 to 18 inches	4.00
18 to 24 inches	5.00
24 to 30 inches	7.00

Falsecypress, Goldthread—Same as the green type except a bright golden color. Each

12 to 15 inches	\$3.00
15 to 18 inches	4.00

YEW (TAXUS)

"The Cadillac of Evergreens"

Taxus cuspidata expansa (Spreading Yew)—similar to the upright type except its spreading habit, growing slightly higher than the spreading Junipers. Like all Yews, grows in a shady location. Each

12 to 15 inches	\$ 5.50
15 to 18 inches	7.50
18 to 24 inches	9.00
24 to 30 inches	12.00
30 to 36 inches	15.00

Taxus cuspidata capitata (Upright Japanese Yew)—One of the most beautiful of the evergreens. It grows slowly with a delightful irregularity of outline; its many branches covered with the rich, waxen, green foliage characteristic of all yews. Some trees have bright red berries in the fall. Each

18 to 24 inches	\$10.00
24 to 30 inches	13.50
30 to 36 inches	17.50
3 to 3½ feet	27.50
3½ to 4 feet	32.50
4 to 4½ feet	37.50

Taxus cuspidata nana (Dwarf Japanese Yew)—Foliage is darker than the regular spreading yew. Slower growing, more dense in habit and well adapted for planting in confined areas. Each

12 to 15 inches	\$ 7.00
15 to 18 inches	9.00
18 to 24 inches	12.50
24 to 30 inches	18.00

Taxus media hatfieldi (Hatfield Yew)—A compact bush of conical shape with upright branches and radially spreading leaves. This habit makes it valuable for thick hedges as well as specimen planting. Each

18 to 24 inches	\$ 8.00
24 to 30 inches	11.00
30 to 36 inches	15.00
3 to 3½ feet	20.00

Taxus media hicksi (Hick's Yew)—A very interesting Yew of an upright type growing in an extreme, narrow columnar bush. It is rapid growing and has a deeper green color than most Yews. Each

18 to 24 inches	\$ 7.00
24 to 30 inches	10.00
30 to 36 inches	13.00
3 to 3½ feet (heavy)	17.50
3½ to 4 feet (heavy)	20.00
4 to 5 feet	30.00

Taxus hunnewelliana (Hunnewell Yew)—This is a yew of dense habit and rich green color. It differs from regular Spreading Yew in that it is globular in shape. Makes an excellent low hedge and is good for restricted areas. Each

12 to 15 inches	\$6.00
-----------------------	--------

EVERGREEN WINDBREAKS

Arborvitae, Oriental —3 to 4 feet B&B	\$3.00
Fir, Douglas —18 to 24 inches B&B	2.25
Fir, Douglas —2 to 3 feet B&B	3.50
Pine, Norway —2 to 3 feet B&B	3.00
Pine, Austrian —2 to 3 feet B&B	3.50
Spruce, Norway —18 to 24 inches B&B	2.25
Spruce, Norway —2 to 3 feet B&B	3.50

Above prices are based on quantities of 20 or more F.O.B. LaFayette. No orders accepted after May 1.

BROADLEAF EVERGREENS

NEW! CORLISS EUONYMUS

Here is something new! The broadleaf beauty of Euonymus foliage especially developed into two shrub forms as listed, without support or training. They will, however, respond to shearing if a slightly altered shape is desired—these forms of Euonymus, because of their hardiness make the broad-leaved evergreen shrub available where our climate here in Illinois prohibits such items as Azaleas, Boxwood, and Holly.

Euonymus Emerald Pride (Patent 1073)—Neat, compact, evergreen shrub of ovoid form, with an ultimate height of 4 feet and spread of about 3½ feet. Distinctly upright growth from one stem without support!

Euonymus Emerald Charm (Patent 1079)—Exceptionally compact specimen for upright narrow shape. Suitable for a pillar shrub, hedge, or pyramid. Ultimate height 4 to 5 feet, spread about 18 inches. Responds to shaping.

No. 1	Each \$5.50
Three or more	4.60

Rhododendron maxima—Pink flowering Rhododendron. You must have the proper location. They do very well if planted where the winter sun does not strike, and the soil mixture is about one-third peat.

Each	
2 to 3 feet	\$12.50

Euonymus fortunei actus—Slender, nice on trellises, rock walls, retaining walls, and suitable for low hedges—slow growing, small-leaved—makes an excellent ground cover.

Each	
10 to 15 inches	\$.75

Euonymus patens—Is a handsome, nearly evergreen species, with fairly conspicuous clusters of greenish-white flowers after midsummer, and showy pinkish fruits with orange-covered seeds late in the fall. Excellent for shady places.

Each	
2 to 2½ feet	\$3.00

Euonymus radicans erectus (Upright Winter-creeper)—A broad, spreading, shrub clothed in rich, bright green foliage that remains on the plant the year around. It's a plant that blends well with established evergreen plantings. The abundance of richly colored orange and red berries add to its attractiveness.

Each	
3-year plants	\$2.00

Mahonia aquifolium (Oregon Grape Holly)—It has handsome, spiny, dark green lustrous holly leaves which take on a bronzy tone in the fall. The clusters of yellow flowers are showy in the spring, and later the bluish black bloomy fruits are attractive.

Each	
15 to 18 inches B&B	\$4.00

Pyracantha coccinea lalandi (Firethorn)—Heavy fruiting shrub which may be trained as a vine. Large trusses of white flowers in late spring followed by orange-scarlet berries. Prefers warm, sunny spot.

Each	
4-inch pot	\$1.50

Euonymus coloratus (Small Leaf Winter Creeper)—An attractive self-clinging evergreen vine for general use. Foliage colors somewhat in the fall.

Each	
3-year plants	\$1.50

Teucrium chamaedrys—Shrub-like plant of moderate growth. Has shiny dark leaves which hang on all winter. Resembles dwarf boxwood and may be used where latter is not hardy. Can be clipped to suit any height up to 12 inches. Used extensively as an edging for formal beds.

Each	50c
2-year	per 100 \$40.00

SHADE AND ORNAMENTAL TREES

NOTE: Sizes are given as average height, i.e., 5 to 6 feet, or measured by the diameter of the stem 12 inches above the ground, i.e., 2 to 2½ inches.

Prices following are based on the trees being dug naked root, except where noted as B&B. B&B means that the tree is dug with a solid ball of earth. With this method small hair roots are not disturbed.

Special quotations will be made on any of the trees B. and B.

ASH, GREEN—One of our outstanding native shade trees. Very hardy and resistant to disease.

Each	
6 to 8 feet	\$4.00
8 to 10 feet	5.00

(Sizes available in trunk caliper to 4 inches.)

ASH, MOUNTAIN—Hardy tree, head dense and regular. Beautiful fern-like foliage, distinctly ornamental. Covered with clusters of bright red-orange berries from July until winter. An excellent specimen tree for lawn plantings.

Each	
8 to 10 feet	\$ 7.50
2-inch trunk caliper	10.00

BIRCH, CLUMP—A picturesque form of American White Birch with several trunks growing from one root. When tree is mature the bark is white and the leaves a lively green. Lends a woody touch to your garden.

Each	
5 to 6 feet	\$6.00

BIRCH, CUT LEAF WEEPING—It's tall, slender, yet vigorous growth, graceful drooping foliage and shining sparkling white bark presents attractive characteristics rarely met in a single tree.

Each	
6 to 7 feet B&B	\$7.50
7 to 8 feet B&B	9.50

(Sizes available in caliper to 3½ inches.)

BIRCH, EUROPEAN WHITE—A graceful tall tree, showing a white bark as it matures. A fine ornamental tree in any position, especially in evergreen group, where the bark shows up most effectively.

Each	
6 to 8 feet	\$6.50

(Sizes available in caliper to 4 inches.)

FLOWERING CRABS

"ALMEY"—Our most sensational Flowering Crab. It has huge dollar-size blooms of a rich fiery crimson. At a distance the tree looks as though it were a mass of flame. Semi-dwarf, 12 to 15 feet. Blooms very young. Very hardy and disease resistant.

	Each
3 to 4 feet	\$3.75
6 to 7 feet	7.50

"BECHTELS"—During May and June it is loaded with delicate pink double flowers, looking like small roses. An old popular variety. Each

3 to 4 feet	\$3.25
4 to 5 feet	4.50

"ELEYYI"—A very showy hybrid with a reddish foliage. The flowers are extra large rose-pink, followed by dark purple fruit. Each

3 to 4 feet	\$2.00
6 to 7 feet	4.00

"HOPA"—Beautiful in bloom, beautiful in foliage, beautiful in fruit. A blaze of red in the spring. From midsummer until severe freezing, the clusters of small red Crabapples gleam brightly along the branches. Makes fine jelly too! Each

6 to 7 feet	\$5.00
-------------------	--------

"RED SILVER"—Small, to 10 or 12 feet. An eye-catching dark purple flower (in a class by itself), fruit are also a dark maroon purple. In all, it adds up to definitely different and perfectly hardy. Each

5 to 6 feet	\$5.00
-------------------	--------

CHESTNUT, CHINESE—One of the best of the nut trees for our climate. BLIGHT RESISTANT, nuts are larger than the American Chestnut and are equally as sweet and good. Makes a very ornamental, low, bushy tree which is slow growing but bears young. Each

4 to 5 feet	\$5.00
-------------------	--------

DOGWOOD, WHITE FLOWERING—Small tree. It is handsome in early spring with its 4 white bracts surrounding heads of small greenish flowers, and again in fall with scarlet fruits and gorgeous red leaf coloring. Each

3 to 4 feet B&B	\$ 7.00
4 to 5 feet B&B	9.00
5 to 6 feet B&B	12.00

DOGWOOD, PINK FLOWERING—Similar to White Flowering, but blooms are bright pink. Each

30 to 36 inches	\$7.50
-----------------------	--------

ELM, AMERICAN—A splendid native tree of tremendous size. Classed among the rapid growing trees and is not easily damaged by storms. Not advisable to plant south of a line running east and west through LaFayette. Each

6 to 8 feet	\$4.00
-------------------	--------

ELM HYBRID—A cross between Chinese and American Elm. Habit of growth similar to American, but the RAPID GROWTH of Chinese. Branches are straight and strong and do not break in high winds. Very hardy and RESISTANT TO ELM DISEASES. Each

5 to 6 feet	\$4.00
6 to 8 feet	6.50

Chinese Elm

ELM, BUISMAN—A selection of the European Smoothleaf Elm. It has a straight trunk with slender but strong, ascending branches that form a pyramidal head or sometimes spreading and forming a round-topped head. The handsome foliage is dense and dark green. Highly satisfactory, both for lawn and street planting. Repeated tests over many years show that it is HIGHLY RESISTANT TO BOTH PHLOEM NECROSIS AND DUTCH ELM DISEASE. Each

3 to 4 feet	\$3.50
-------------------	--------

ELM, CHINESE—Of recent introduction from China. An EXTREMELY RAPID GROWER!! Foliage is small and dense, growth symmetrical and compact. Especially useful in dry locations—succeeds anywhere. Each

6 to 8 feet	\$3.25
8 to 10 feet	5.00

ELM, MOLINE—Variety found growing at Moline, Illinois. A very compact upright and fast-grower. One of our finest trees. Each

6 to 8 feet	\$4.50
8 to 10 feet	7.00

GINKGO BILOBA (Maidenhair Tree)—Leaves are shaped like the Maidenhair Fern. Makes a handsome, picturesque lawn specimen. Very hardy and DISEASE RESISTANT. Each

5 to 6 feet B&B	\$10.00
6 to 7 feet B&B	15.00

LOCUST THORNLESS—Widely planted as a shade tree because it grows rapidly and does not break in windstorms. It has remarkable DROUGHT RESISTANT qualities and will stand severe pruning. Each

6 to 8 feet	\$ 4.00
8 to 10 feet	8.00
2-inch trunk caliper	18.00

LOCUST, MORaine (Plant patent No. 836)—

An improved Honeylocust with a round head when young, but tall and vase-shaped when older. Grows to 30 feet 7 years after planting and ultimately to 80 feet. THORNLESS, SEEDLESS, withstands flood and drought. Longlived. The No. 1 shade tree on the hit parade! ! !

Each	
5 to 6-foot whips	\$ 7.50
6 to 8 feet	10.00

LOCUST, SUNBURST (Plant Patent No. 1313)—

The first new color in a hardy ornamental shade tree in decades. Bright Golden foliage on 8 to 10 inches of branch tips, contrasts with the rich green of the balance of the tree. APPEARS TO BE IN BLOOM ALL SUMMER- ! Exactly the same thornless and seedless characteristics of the Moraine Locust.. Very Sturdy, and rapid growing.

Each	
4 to 5 feet whips	\$5.75
6 to 7 feet whips	9.00

MAPLE, NORWAY—A native of Europe. Grows similar in habit to our native hard Maples, but more dense and of slower growth. Its compact habit, deep green shining foliage render it one of the most desirable for streets and lawns.

Each	
6 to 8 feet	\$6.50
8 to 10 feet	8.50
(Available to 2½ inch trunk caliper.)	

MAPLE, PYRAMIDAL NORWAY—"The shade tree with a future"—This new valuable Maple, besides being a "streamlined tree for city planting," is useful as an accent plant, or for screen purposes. Longer lived than poplars.

Each	
5 to 6 feet	\$7.50

MAPLE, CRIMSON KING (Plant Patent No. 735)—

Unquestionably the most beautiful of all Maple shade trees. The only variety in existence that retains its rich, dark, crimson color throughout the season. This creates an exciting contrast to lawns and shrubs. Excellent for large or small lawns.

Each	
5 to 6 feet whips (Spring Only)	\$ 5.50
5 to 6 feet branched	10.00
6 to 7 feet	13.00
7 to 8 feet	15.00

MAPLE, SCHWEDLERS RED LEAF—Noted for its beautiful rich ruby-red foliage in spring, gradually changing to purplish green, then in fall colors to a bright red, and purple.

Each	
6 to 8 feet	\$ 7.00
8 to 10 feet	11.00

MAPLE, RED—This is the true Red Maple, and is distinguished by its smooth gray bark and brilliant red leaves in the fall. Likes a moist situation. It is a rapid grower of medium size.

Each	
5 to 6 feet	\$ 5.00
6 to 8 feet	6.50
8 to 10 feet	10.00

MAPLE, SILVER—The well-known rapid-growing tree. Valuable where quick shade is wanted. Among the first trees planted for shade by the early settlers.

Each	
6 to 8 feet	\$4.00
8 to 10 feet	5.50
10 to 12 feet	7.50

Sugar Maple

MAPLE, SUGAR OR HARD—Makes a round, dense top, medium rapid growth and one of the best for shade. The leaves are beautiful autumn tints of yellow and scarlet. For shade, RIGHT NOW, we have nursery grown specimens of these to 40 feet in height. Plant one of these and, by golly, you'll have shade, RIGHT NOW! !

Each	
6 to 8 feet	\$ 6.50
8 to 10 feet	10.00
10 to 12 feet	17.00
2 inch trunk caliper	22.00
(Available in trunk caliper to 8 in.)	

OAK, PIN—Forms a symmetrical pyramid head with long pendulous branches. The foliage is "shredded-like" and assumes a bright red in the fall. Because of its erect symmetrical and rather rapid growth, it is much used for avenues and as a specimen tree in lawns.

Each	
5 to 6 feet	\$ 7.50
6 to 8 feet	8.50
8 to 10 feet B&B	12.00
10 to 12 feet B&B	17.00
2 inch trunk caliper B&B	25.00

PLANETREE, ORIENTAL—One of the most useful street and park trees. It has a broad, coarse, foliage which resists city smoke, dust and ravages of insects and carries its summer green until late in the autumn. For a rapid growing tree of permanence it holds first place.

Each	
6 to 8 feet	\$ 4.50
8 to 10 feet	7.00
10 to 12 feet	11.00

POPLAR, LOMBARD—Very tall, rapid-growing tree with spire-like habit. Its tall, narrow lines make it PICTURESQUE, and commands the landscape for many miles. Used extensively in screens or to accent shrubby groups.

Each	Per 10	
6 to 8 feet	\$1.25	\$10.00
8 to 10 feet	\$1.75	15.00

POPLAR, BOLEANA (Silver Leaf Poplar)—This variety is similar in habit to the Lombardy Poplar, but does not grow quite so fast. It has a smooth green bark and the leaves are silver underneath and dark green on top. Each
5 to 6 feet **\$1.75**

PLUM, RED LEAF "THUNDERCLOUD"—A new introduction to the red leaved *Prunus* varieties. Outstanding because of its ability to hold its vivid red color during the hot summer months. Each

3 to 4 feet **\$2.25**
6 to 7 feet **5.00**

PLUM, PURPLE LEAF (*Prunus cistena*)—Outstanding for its brilliant red foliage throughout the growing season. Has a small pink bloom in spring. Each

4 to 5 feet **\$3.50**
5 to 6 feet **4.50**

PRUNUS TRILOBA ON PLUM (Tree Flowering Almond)—The small double quilled, bright pink flowers stud every twig and branchlet in the spring before the leaves appear. Each

3 to 4 feet **\$3.25**

RED BUD (*Cercis canadensis*)—Before the leaves come out the branchlets are literally loaded with clusters of small purplish-pink pea blossoms. Native in Illinois. The foliage consists of attractive medium-sized heart-shaped leaves. VERY ORNAMENTAL. Each

4 to 5 feet **\$4.25**

SYCAMORE—Considered the largest hardwood tree in North America. It is one of the more rapid growing trees. The bark on the younger trunk and large limbs is very smooth and greenish-gray in color. The outer bark yearly flakes off in large white patches and exposes the nearly white younger bark. Each

6 to 8 feet **\$4.00**
8 to 10 feet **5.50**

THORNE, PAULS SCARLET—One of our most beautiful lawn trees. A decorative tree with an abundance of carmine-red lowers in late May or early June followed by bright red berries. It has very attractive deep-cut leaves. Hardy and very desirable. Each

5 to 6 feet B&B **\$10.00**

THORNE, DOUBLE PINK—Same as Pauls Scarlet except has double pink flowers in the spring. Each

5 to 6 feet B&B **\$10.00**

THORNE, WASHINGTON—One of the best for formal plantings. Narrow in habit with a dark green glossy foliage. Blooms with an attractive red flower, followed by attractive "red haw" berries. Each

3 to 4 feet B&B **\$6.00**
4 to 5 feet B&B **8.50**

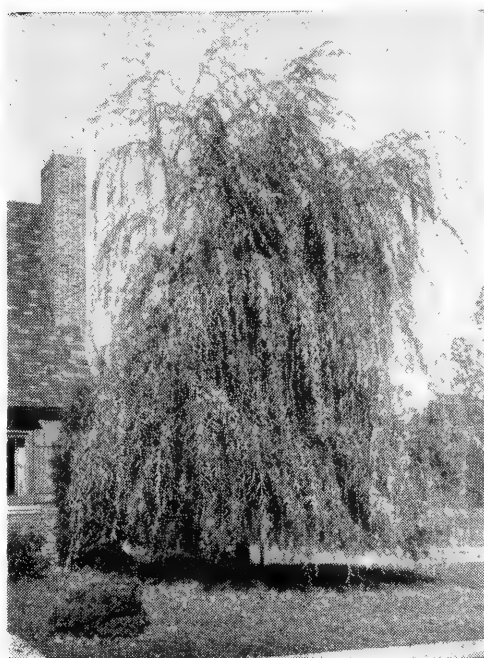

TULIPTREE—A tall, straight tree with handsome, light green foliage of very unusual shape. It bears large greenish yellow flowers resembling a tulip in later life. It makes a very excellent shade tree. FAST GROWER BUT FIRM WOODED. Each

6 to 10 feet B&B **\$ 8.50**
8 to 10 feet B&B **12.25**

(Sizes available to 4 inch caliper.)

WILLOW, WEEPING—The well-known, graceful Weeping Willow, whose long drooping branches densely covered with fresh green leaves, make it one of the best-loved trees. Likes a moist situation. Each

6 to 8 feet **\$3.75**
8 to 10 feet **5.50**

Weeping Willow

FLOWERING SHRUBS

ARALIA

ACANTHOPANAX Sieboldianus—(5 Leaf Aralia)—Medium-growing shrub which is valuable because of its ability to grow in shaded areas. Has light green foliage and makes a dense shrub with shearing. Bears small thorns on stems. Each

18 to 24 inches **\$1.00**

FLOWERING ALMOND

Almond Flowering—Very early spring flowering shrub, delightfully in bloom before the leaves appear. The flowers are an attractive bright double pink. Each

3 to 4 feet **\$1.50**

ROSE OF SHARON

Althea (Rose of Sharon)—Upright growing shrub noted for its profusion of large blooms in September and October. This is the only shrub which produces varied color in the border for fall. Named colors in red, pink, white and blue.

Each
18 to 24 inches \$1.00
2 to 3 feet 1.50

2 **Aronia arbutifolia brilliantissima (Red Chokeberry)**—A useful shrub combining good habits of growth, attractive summer and fall foliage, showy flowers and brilliant fruits. Leaves glossy green, turning bright red in the fall. The white flowers in early May are followed by fruit which becomes brilliant red in the fall. Ultimate height 3 to 4 feet.

Each
2 to 3 feet \$1.75

Barberry—See hedges.

Buddlia (Butterfly Bush)—Begins to bloom in July and continues until frost. The flowers are of a pleasing shade of violet-mauve and borne on dense cylindrical spikes. Very fragrant and attractive to the butterflies. Available in white, red, and pink.

Each
2 yr. stocks \$1.35

SWEET SHRUB

Calycanthus floridus (Sweet Shrub)—Old-fashioned "All-Spice" with glossy leaves and chocolate-colored flowers with the fragrance of the strawberry. The wood and leaves have a very pleasant spicy fragrance.

Each
30 to 36 inches \$1.75

Caryopteris clandenensis (Blue Mist)—A bushy plant 2 to 4 feet high with excellent foliage. Covers itself with fuzzy gray-lavender flowers in September and October. Sometimes freezes to the ground but will renew itself and bloom again in one season.

Each
Medium 75c

Callicarpa dichotoma (Beautyberry)—Unexcelled for midseason beauty. In late September, the graceful branches are hidden by countless clusters of violet-purple berries which last well into the winter. In August, thousands of closely-set dainty, pink-tinted flowers sparkle in the summer sunlight. Ultimate height 3 to 4 feet.

Each
18 to 24 inches \$1.35

COTONEASTER

Cotoneaster acutifolia (Peking Cotoneaster)—A valuable massing and hedging shrub. Shining dark green leaves, black fruit birds love. You'll love them.

Each
18 to 24 inches \$1.25
2 to 3 feet 1.75

Clethra alnifolia (Sweet Pepper Bush)—A pretty little shrub that blooms freely for several weeks in summer, very fragrant white flowers. Plant this shrub in groups where its fragrance can fill the air. VERY PLEASANT!

Each
15 to 18 inches \$1.25

Chionanthus, White Fringe—A handsome, tall growing shrub of tree-like proportions. Fragrant drooping panicles of white flowers in May and June. Large green leaves turning yellow in fall, followed by small blue plumlike fruits.

Each
18 to 24 inches \$2.25

DOGWOOD

Cornus variegata elegantissima (Variegated Dogwood)—Silver variegated leaves, bright red bark, very attractive. Description speaks for itself.

Each
18 to 24 inches \$1.75

Cornus siberica (Red twig Dogwood)—A shrub with blood-red branches in the winter. Fruit bright blue and flowers white. Attractive to desirable birds.

Each
3 to 4 feet \$1.25

Cornus lutea (Yellowtwig Dogwood)—A shrub of medium size with bright yellow bark in the winter. Good green foliage.

Each
18 to 24 inches \$1.00

FLOWERING QUINCE

Chaenomeles lagenaria (Flowering Quince)—Old-fashioned shrub with glossy leaves and orange-red flowers in great profusion in early spring before the leaves appear and followed by small quince-shaped fruit which are quite fragrant.

Each
2 to 3 feet \$1.00

Chaenomeles lagenaria variety rubra (Dark Red Flowering Quince)—Propagated form of the Quince. Upright in habit with vivid flaming red flowers.

Each
2 to 3 feet \$1.75

Chaenomeles japonica pygmaea (Dwarf Flowering Quince)—Red flowering dwarf type Quince. Ideal where small dwarf shrub is needed.

Each
15 to 18 inches \$1.25

Deutzia gracilis (Slender Deutzia)—Seldom grows more than 3 feet high. DWARF. Bears many lovely racemes of white flowers in late spring.

Each
15 to 18 inches \$1.50

Deutzia lemoine (Hybrid Deutzia)—Makes a broad, rounded bush of medium growth and has large clusters of white flowers in late spring. Very hardy and has excellent foliage all summer.

Each
18 to 24 inches \$1.35

Deutzia rosea (Pink Deutzia)—This lovely plant is the prettiest and most graceful of all the Deutzias. In late May there is a superabundance of delicate pink flowers which cover the entire plant. It does well in sun or light shade and is excellent for edging walks or in foreground of foundation plantings. Ultimate height 3 to 3 feet.

Each
2 to 2½ feet \$2.25

EUONYMUS

Euonymus alatus (Burning Bush)—Has compact habit, wood very corky which gives it the name of cork bark. Has small delicate flowers in late spring, followed by red berries in the fall. Foliage turns a brilliant fiery red in the fall.

Each
2 to 3 feet \$2.75

Euonymus alatus compacta—A dwarf form of the Burning Bush. One of the most beautiful and useful shrubs in existence. Can be used both in foundation and border plantings

Each
2 to 3 feet \$4.50

RUSSIAN OLIVE

- Eleagnus angustifolia (Russian Olive)**—Rather large growing shrub with silvery foliage. Fine for screen plantings for contrast with other shrubs. Particularly effective using it as a background for the Red Leaf Plum. Each
- 2 to 3 feet\$1.25

FORSYTHIA

- Forsythia intermedia Spring Glory (Golden Bell)**—One of the most desirable for border plantings, because of its very graceful habit. Flowers yellow and bell-shaped, bloom along the entire length of the branches in early spring before the leaves appear. Each
- 2 to 3 feet\$1.00
- 3 to 4 feet1.50
- 4 to 5 feet1.75
- Forsythia, Arnolds Dwarf**—This new Forsythia grows only a few feet tall and the spreading branches root readily in contact with the ground. Its compact spreading growth habit makes it a good ground cover. Introduced by the Arnold Arboretum. Each
- 15 to 18 inches\$1.25

HONEYSUCKLE

- Honeysuckle, Clavey's Dwarf**—A new dwarf Honeysuckle, a very compact grower attaining height of 3 to 4 feet. Small yellow flowers in May followed by red berries. Very hardy and makes an idea shrub for a low screen or hedge. Each
- 15 to 18 inches\$1.25
- Honeysuckle, Zabeli**—This is a new form of Blue Leaf Honeysuckle which differs in that it has a brighter red bloom and a more dense habit. Foliage excellent blue-green throughout the season. Each
- 2 to 3 feet\$1.00
- 10 rate .75
- 3 to 4 feet1.25
- 10 rate 1.00
- 4 to 5 feet1.50
- 10 rate 1.25
- 100 rate 1.00

HYDRANGEA

- Hydrangea arborescens grandiflora (Hills of Snow)**—The flowers are similar to snowballs in appearance, white and imposing, blooming throughout the season. Excellent for solid low borders and foundation plantings. One of the few shrubs which bloom well in shade. Each
- 2 to 3 feet\$1.50
- Hydrangea paniculata grandiflora (Peegee Hydrangea)**—A well-known shrub that blooms from August until late fall. The blooms are first white, then turn pink on exposed sides. It produces the largest flower head of all shrubs. Will bloom in shady situation. Do not plant in south foundation. Each
- 2 to 3 feet\$1.50
- Hydrangea, P. G. Tree Form**—The Peegee Hydrangea pruned to a single stem with a head that blooms the first year. Each
- 4 to 5 feet\$4.50

- Hydrangea macrophylla "Nikko Blue" (Blue Hydrangea)**—The most beautiful of all hardy blue Hydrangeas. It has withstood temperatures of 20 degrees below zero. Tops die down in winter, but give them a little protection and the crowns will grow into bushy shrubs in one season, 2 to 3 feet tall with masses of China blue flowers. Try this new plant in your garden. (Needs addition of an acid fertilizer). Each
- Strong 2-year crowns\$2.00
- 3-year crowns3.00

- Hypericum aureum (Golden St. Johns Wort)**—Hardy dwarf shrub with dark green foliage that hangs on into winter. Blooms in July-August with yellow flowers at a time when most shrubs are out of season. Each
- 2 to 3 feet\$1.00
- Kerria japonica pleniflora (Double Japanese Yellow Kerria)**—Often called Globe Flower because its innumerable clustered petals give the blooms a ball-like shape. Stems are a bright green which show up well in the winter. Each
- 2 to 3 feet\$2.00

LILAC

- Lilac, Common Purple**—Large old-fashioned shrub with bluish-purple flowers. Very sweet scented. The most popular and earliest to bloom of all lilacs. Each
- 2 to 3 feet\$1.50
- Lilac, Common White**—White form of the common Lilac. Each
- 3 to 4 feet\$1.75
- Lilac, Chinese**—Finest Lilac for screen plantings. Bloom the first year planted. Very dense growing and the foliage does not mildew. Each
- 2 to 3 feet\$1.50
- 3 to 4 feet1.75
- Lilac, French Hybrids**—Named varieties in red, purple, pink, blue and white. These Lilacs are more dwarf growing than the others and are all grafted to insure pure color as well as guarantee blooms soon after planting. Each
- 2 to 3 feet\$2.50
- MAGNOLIA SOULANGEANA**—By far the best of the hardy Magnolias, producing prolific pink shaded blooms just before the leaves open. The flowers open light purple at base, shading to pink at the tips, with inside petals, clear pink to white. Our most beautiful ornamental. Each
- 3 to 4 feet\$12.50
- 4 to 5 feet15.00

MOCK ORANGE

- Philadelphus cornarius (Sweet Scented Mock Orange)**—Familiar shrub with vigorous erect habit that has white blossoms near Memorial Day. The breath of Orange blossoms, intense from the multitude of bloom, makes it a necessity to a garden and works splendidly in all sorts of plantings. Each
- 3 to 4 feet\$1.50
- Philadelphus cornarius nanus (Dwarf Sweet Mock Orange)**—New dwarf edition of the very fragrant Sweet Mock Orange—just the shrub for dwarf borders, foundation plantings and where the pleasing fragrance can pass through your window. Each
- 12 to 15 inches\$2.00

Philadelphus virginialis variety virginal (Virginal Mock Orange)—A magnificent new variety. Far exceeds any other Mock Orange in beauty and form. Flowers are semi-double and cover the entire bush in early June. Has scattered blossoms the balance of the year. Each
3 to 4 feet\$1.75

Philadelphus Minnesota Snowflake (Plant Patent No. 538)—A very hardy new Mock Orange. Introduced by a Minnesota nursery. The name snowflake describes the shrub correctly. When in full bloom, the foliage is completely obscured by the profusion of large white flowers. Each
2 to 3 feet\$2.00

Potentilla Golddrop—Charming small shrub, compact growth. Ultimate height 2-2½ feet. Excellent for under-window plantings. Buttercup-like flowers from early June until October. Each
18 to 24 inches\$2.00

Privet—See Hedges

✓ **Prunus tomentosa (Nanking Cherry)**—A contented-looking shrub with straight upstanding branches, each stem completely surrounded by tiny Cherry blossoms, which envelope the whole bush. The red fruits which follow are very attractive and are delicious to eat. Each
3 to 4 feet\$2.25

Rhus cotinus (Smoke Bush)—A bushy shrub that has handsome foliage and large clusters of rather showy flowers, followed by peculiar long-haired seeds which give the plant the effect of being covered with a greenish-purple film of smoke. Each
3 to 4 feet\$2.00

Rose, Grootendorst—See Hedges.

PUSSY WILLOW

Salix discolor (Pussy Willow)—A fast-growing shrub-tree, blooming before the leaves come out. The fern-like catkins borne along the branches make it very attractive. Loves moist places. Each
18 to 24 inches\$1.00
8 to 10 feet2.50

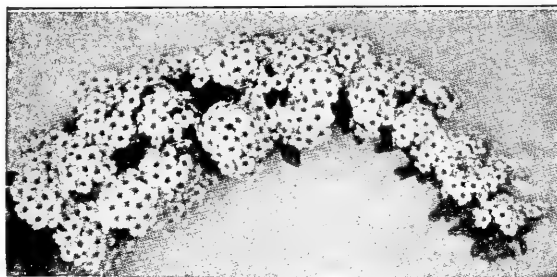

Salix nana purpurea (Dwarf Blue-Leaf Arctic Willow)—See Hedges.

SPIREA

Spirea bumalda anthony waterer (Rose Spirea)—Low-growing type of very compact, dense habit, with flat-topped clusters of rose-colored flowers throughout the season. Excellent for low foundation plantings. Each
15 to 18 inches\$1.35

Spirea frobeli (Frobel Spirea)—Compact shrub of medium height producing numerous flat-topped clusters of orchid-pink flowers during the summer. Later the foliage turns to the autumn colors. Each
2 to 3 feet\$1.25

Spirea van houttei (Bridal Wreath)—One of the finest of flowering shrubs and none so popular or widely planted. Its adaptability to almost any soil or situation makes it one of the most desirable shrubs under cultivation. Each
2 to 3 feet\$1.00
3 to 4 feet1.25

Spirea Van Houttei

Spirea prunifolia plena (True Double Bridal Wreath)—Shrub of rather stiff dense growth with shiny foliage, turning bright autumn tints in the fall. Has tiny double white flowers in clusters borne with utmost profusion along all of the branches as the leaves appear in the spring. Each
3 to 4 feet\$1.50

Spirea thunbergi (Snow Garland)—A shrub with thin, arching branches plentifully besprinkled in very early spring, with tiny single snow white flowers. It is a dainty and very beautiful shrub, with feathery fresh green foliage that in autumn turns scarlet and orange. Each
30 to 36 inches\$1.50

Symphoricarpos alba (Snowberry)—Small pink bloom in May and June, followed by clusters of waxy white berries in the fall. Birds love them. Each
2 to 3 feet\$1.00

TAMARIX

Tamarix—Heavy growing shrub with reddish purple branches and bluish-green feathery foliage. Flowers in large pink panicles in August. Each
2 to 3 feet\$1.25

VIBURNUM

Viburnum dentatum (Arrowwood)—Upright growing with light green leaves. Flowers greenish white followed by black fruit. A fine shrub for massing or foliage effect. Each
2 to 3 feet\$1.00

Viburnum opulus (Highbush Cranberry)—Tall and upright with good foliage and especially decorative red fruit in large clusters which resemble cranberries and hang on well into the winter. Each
2 to 3 feet\$1.25

Viburnum opulus nana (Dwarf Highbush Cranberry)—A beautiful new shrub with the foliage of regular Highbush Cranberry, but never exceeding 24 inches in height. Excellent for informal hedges and foundation plantings on low houses. Does better in semi-shade. Each
4-year plants\$2.25

Viburnum carlesi—As the foliage unfolds in the spring this plant is covered with ball-like, pink flowers that give out a fragrance similar to that of the Mayflower. Plant in a sunny, well-drained location, and give plenty of moisture. Ultimate height 5 ft. Each
18 to 24 inches\$13.50

Viburnum opulus sterilus (Snowball)—Old-fashioned shrub that grows anywhere and blooms well. Characterized by its large clusters of white flowers at Memorial Day. Each
2 to 3 feet\$2.00

Vitex macrophylla (Chaste Tree)—Rich lavender-blue spikes of bloom from July to frost, 4 to 6 feet high. Star-like foliage. Striking appearance. Each
2 to 3 feet\$1.50

WEIGELA

Weigela wagneri v. eva rathke (Carmine Red Weigela)—Dwarf but erect shrub with deep carmine red flowers throughout the summer. Each
3 to 4 feet\$1.50

Weigela hendersoni (Pink Weigela)—Deep pink blossoms borne in June of this hardy Pink Weigela. Beautiful showy shrub. Each
3 to 4 feet\$1.25

Weigela vanicek (Red Weigela)—Vigorous growing red Weigela. One of the finest Weigelas. Red flowers throughout the summer. Each
3 to 4 feet\$1.50

Weigela nana variegated (Dwarf Weigela)—This is a dwarf variegated Weigela—another of those scarce shrubs that remain dwarfed in older life. A gentle long-lasting small shrub. 18 to 24 inches\$1.25

WITCH HAZEL

Hamamelis virginiana (Witchazel)—A spreading shrub of irregularly rounded outline, compact when young, but becoming open and picturesque with age. Will grow in partial shade and endures city conditions. Has misty yellow bloom in fall after leaves fall. Useful as a background shrub and as a specimen. Each
18 to 24 inches\$1.00

HEDGES

Barberry Mentorensis

Barberry mentorensis—(Plant Patent No. 99)—

Very rugged, strong, upright growing branches and quite formidable thorns, foliage is heavy and thick, and of perfect color—a green as dark as the Yew. In Illinois, the leaves remain green until after the holidays. In southern states this barberry is an evergreen. Its most valuable attribute is its ability to withstand heat and drought. Will grow in almost any impossible location.

Each
18 to 24 inches\$1.50

Barberry, Green—There is no shrub in existence more commonly used for foundation plantings and hedges. Autumn paints the foliage crimson and bronze and studs the branches with red berries which hang on all winter.

Each Per 10 Per 100
15 to 18 inches75c \$6.50 \$50.00

Barberry, Red Leaf—A shrub of medium height, with distinctly red foliage throughout the year. Needs a sunny location to bring out the gorgeous red color of the leaves.

Each Per 10 Per 100
15 to 18 inches\$1.00 \$8.50 \$75.00

Currant, Alpine (Ribes alpinum)—A hardy dense shrub suitable for hedges or mass planting. Small greenish flowers in May followed by scarlet fruit.

Each Per 10
15 to 18 inches\$1.00 \$8.50

Privet, Golden (Vicari)—New hardy privet that carries golden-yellow leaves, providing a wealth of interesting contrasts from early spring until late fall. Develops a neat compact shrub that can be trimmed into any shape. Suitable for use as an individual shrub, or for hedging.

Each
15 to 18 inches\$1.00

Privet, Amur River Hedging—Well-known formal hedge plant for shearing. One of the hardiest plants grown. Does not winter kill.

Per 10 Per 100
18 to 24 inches 3 canes up\$3.00 \$25.00
2 to 3 feet (Heavy)\$6.50 \$60.00

Privet, Lodense (Dwarf Privet)—Very compact growing and requires little shearing. The foliage is very dark green and hangs on until mid-winter. Excellent for edging formal gardens.

Each Per 10 Per 100
12 to 15 inches85c \$7.50 \$70.00
15 to 18 inches\$1.00 \$8.85 \$75.00

Privet, Regals Prostrate—Spreading shrub for general garden use in addition to hedge use, in which case it makes a fine, broad hedge. Ultimate height 6 feet.

Each
15 to 18 inches\$1.00

Rose, Grootendorst Supreme (Hardy Red Rose)—

This plant is the showiest hardy red rose in existence. It is covered the entire season with clusters of semi-double red roses. Vigorous grower and can be used almost anywhere in border.

Each Per 10
3-year No. 1\$1.65 \$15.00

Teucrium Dwarf Hedging—Shrublike plant of moderate growth. Has shiny dark leaves which hang on all winter. Resembles dwarf Boxwood and may be used where the latter is not hardy. Can be clipped to suit any height up to 12 inches. Used extensively as an edging for formal beds. Each Per 10
2 year50c \$4.00

Willow, Dwarf Arctic Hedging—A charming low growing willow exceedingly suitable for edging. Grows anywhere in wet or heavy soils where other plants perish. Just the plant for low edging around beds or along walks in difficult location. Foliage is a lovely silver green. Each Per 10
2 feet60c \$5.00

VINES AND GROUND COVERS

The wonderful grace and beauty of well-placed vines add untold value and charm to the home and garden.

BITTERSWEET — Well - known native climber, handsome glossy foliage and large clusters of beautiful orange-crimson fruit retained all winter. Each
4-year plants \$1.00
3 or more80

CLEMATIS JACKMANI (Purple)—Hardy vine with very large purple flowers. They like rich, moist situations and not too sunny a location. A favorite for trellis, arbor porch. Each
1-year plants \$1.25
4-year plants 3.00

CLEMATIS HENRYI (White)—A strong luxuriant grower with large, pure white flowers. Each
2-year No. 1 \$1.75
4-year No. 1 3.00

HONEYSUCKLE, HALLS—Strong grower. Holds foliage until early winter. Flowers are white, changing to yellow. Very fragrant. Excellent for holding banks and ground cover.
2-year No. 1 \$ 4.50 per 10
25.00 per 100
3-year No. 1 7.50 per 10
60.00 per 100

HONEYSUCKLE, FLAMING GOLD—Bright, flame-pink and creamy gold, two-toned flowers make the loveliest new vine ever offered. Ultimate height 15 feet in height. Each
2-year No. 1 \$1.35

IVY, BOSTON—The most popular climbing plant for covering brick, stone or wooden walls. The color is a fresh deep green in the summer, changing to autumn tints in the fall. Each
2-year No. 1 \$1.25
3-year No. 1 1.50

SILVER LACE VINE—The most vigorous and rapid growing of all climbers, when blooming, is covered with foamy sprays of white flowers. Excellent as a living canopy for patios, etc. Each
2-year No. 1 \$1.50

SILVER LACE (Both Regular and Dwarf Reynoutria)—This is the answer to ground cover problems in the full sun. Holds banks magnificently, even in the very hottest of spots. Flowers are foamy sprays of creamy white flowers. Each
No. 1 \$.90

VINCA MINOR (Periwinkle)—Lovely ground cover for shady places that are difficult to maintain. Dark, glossy, green leaves on trailing runners. Sky blue flowers in June to augment beauty of the foliage. Each
Per clump \$.35

IVY, BALTIC—Identical in habit to the English Ivy, but foliage not as large and more cut; a most graceful vine, perfectly hardy and a splendid evergreen vine on walls with north exposures. This makes an excellent ground cover. Each
3-year No. 1 \$1.25

WISTERIA PURPLE—Long, attractive clusters of purplish-blue flowers early summer. Vigorous grower and one of the hardiest climbers. Each
2-year No. 1 \$1.25

Due to an old American custom we go home for dinner between 12 and 1 o'clock. Hours 8-12 and 1-5 Monday through Saturday year around. Open Sundays 9-12 and 1-5 spring and fall seasons.

ROSES

All roses flourish best when planted in good, rich, well-drained soil in an open, sunny location, but sheltered from north winds. They should be in beds or borders by themselves where roots of neighboring trees or shrubs will not penetrate or rob the soil. Make the hole deep (10 to 12 inches) and be sure that the plant is set low enough so that the bud union (graft) is about 1 inch below the surface of the ground. As you take each plant for the packing, soak the roots for several hours in water, or better yet, dip them for a minute in a "Gro-Stuff" solution, then plant as above recommended, 18 inches apart. Roots should be spread out naturally, the soil pressed very firmly around them, then water thoroughly. Prune back tops to within 4 to 6 inches of the ground when planting, and cover entire plant with earth to prevent drying of wood and buds, earth protection to be gradually removed after the buds begin to grow. Good cultivation and thorough watering during dry periods are essential to success. In early summer before the weather becomes hot, it is well to cover the bed with two inches of lawn clippings.

The Climbing Roses are quite hardy, but require winter protection in places of zero temperatures. Lay down the canes in late fall and cover

with earth and straw or wrap in straw and burlap, then mulch with six inches of straw or leaves after the ground has frozen. Everblooming Climbers must be well protected. The Hybrid Teas, Polyantha and Floribunda Roses must have winter protection, especially in the North. After a sharp frost, but before severe freezing weather, mound earth over and around each plant for a distance of 8 to 10 inches, then when the ground is frozen down about 2 inches cover around the mounds and over them with 6 to 12 inches of leaves, straw, sawdust, or shredded cornstalks held down with boards.

Each spring as the Hybrid Teas are uncovered, the plants should be trimmed of all wood injured during the winter months. Rugosa Roses will require little annual pruning except to keep them to the size desired. Climbing Roses, when once established, should have no trimming whatever in early spring except to prune out any dead wood. Any extensive trimming to Climbers, that you find necessary, should be done immediately following the blooming period.

A few roses in any sunny location in your yard will give you more pleasure and satisfaction than any other plant.

HYBRID TEA ROSES

2-year No. 1each \$1.65
3 or more each 1.50

RED

Christopher Stone—Scarlet Red
Crimson Glory—Deep Crimson
Poinsetta—Bright Scarlet
Red Radiance—Rose Red
Ena Harkness—Crimson Scarlet

Rose

YELLOW

McGredy's Yellow—Buttercup Yellow
Mme. Joseph Perraud—Shell pink at edges to buff and orange in the center
Golden Dawn—Sunflower Yellow

PINK

Picture—Pure rich pink
The Doctor—Bright pink
Radiance—Old-fashioned pink. Strong grower!!

ORANGE

Hinrich Gaede—Crimson orange

WHITE

K. A. Victoria—Ivory white
Pedralbes—Large creamy white

MULTI-COLORED

President Herbert Hoover—Shadings of pink, yellow and copper.

FLORIBUNDA ROSES

2-year No.-1\$1.50

LaFayette Improved—OUR SPECIALTY!!
Double, deep red blooms, abundantly displayed in Hybrid Tea form in sturdy bushes that are covered with one of the most strikingly beautiful of all red roses.

Eutin—Large clusters of very double, deep red flowers on a vigorous mildew-resistant bush.

Alain—Bright Carmine-red blooms come in clusters all over the densely branching plants. A good, clear, lasting color. Semi-double, with large, bright golden centers. Thick foliage on strong green stems and husky plants 2½ feet tall.

CLIMBING ROSES

Price \$1.50

Pauls Scarlet—Large well-shaped flowers of a vivid scarlet red that does not fade.

Blaze—Sometimes called the everblooming Pauls Scarlet. Blaze gives a plentiful supply of vivid scarlet roses over a long first blooming period and then continues to flower intermittently all season.

PATENTED CLIMBING ROSES

Dr. J. H. NICHOLAS (Patent No. 457) — Vigorous plant carrying dark green foliage. Produces fully double deep pink flowers, five to six inches across. Grows 8 to 10 feet high and is ever-blooming. Price\$2.25

King Midas (Patent No. 506)—Blooms with a profusion of large double yellow flowers. Price\$2.00

PATENTED FLORIBUNDA ROSES

Carrousel (Patent No. 1066)—Grandiflora type with one of the highest ratings ever given by the AARS. Continuous mass of glowing deep red flowers regardless of weather. Tall growing and mildew resistant. Price\$2.00

Circus (Patent No. 1382)—The Sole All-America Winner for 1956 and the first multi-colored Floribunda in AARS history. A magnificent show of changing colors—orange, bright yellow, pink and red. Excellent for bedding, bordering or cutting. Price\$2.50

PATENTED HYBRID TEA ROSES

Chrysler Imperial (Patent No. 1167)—Vivid crimson red, an outstanding red rose. The buds are long and tapering. It is an excellent grower and free blooming. Winner of All-American award for 1953. Each Price\$2.50
3 or more 2.20

New Yorker (Patent No. 823)—Brilliant red with color long lasting and sun-resistant. The buds slowly open into very large flowers, often measuring 6½ inches across. Each Price\$2.25
3 or more 2.00

APPLES

4 to 5 feet Each
3 or more\$2.25

SUMMER VARIETIES

↖ **Duchess of Oldenberg**—This apple produces large striped red fruit. Excellent for eating, pies, and sauces. Trees grow vigorously and are hardy.

Yellow Transparent—A fine early apple. Ripens in July or early August. Bears very young, sometimes even here in the nursery. EXTREMELY HARDY.

Peace (Patent No. 591)—Adjudged by experts to be one of the greatest new roses of all time. Magnificent large, very double blooms ranging in color from a deep yellow in bud, to creamy yellow with cerise-pink edging as the petals unfold, and finally an alabaster shade on fully open blooms. Very strong grower. Each

Price\$2.50
3 or more 2.20

President Eisenhower (Patent No. 1217)—Large blooms of rich, unfading, uniform rose-red with lasting brilliance. Come singly on strong stems. Each Price\$2.25
3 or more 2.00

Sutters Gold (Patent No. 885)—Its most outstanding feature is its beautiful, long pointed yellow bud, richly shaded with coppery-red. When fully open it is a superb yellow rose with coppery veins through its flower petals. Won the Foreign Gold Medal in Paris in 1948 and All-American winner in 1950. Each Price\$2.50
3 or more 2.20

Tiffany (Patent No. 1304)—AARS award for 1955. A beautiful phlox pink producing blooms of outstanding quality. The long pointed buds are deep pink with golden yellow shading at base of petals. Each Price\$3.00
3 or more 2.50

Rose of Freedom (Patent No. 791)—Currant red blooms with 60 to 70 petals borne on almost thornless 28 to 32-inch stems. Winner of City of Portland award for 1947. Highest scoring red rose in 1946-37 nation-wide rose shows. Each

Price\$2.00
3 or more 1.75

Katherine T. Marshall (Patent No. 607)—A rose of rare beauty and delicacy of form. Grows vigorously with large, open upright blooms of warming glowing pink. Each Price\$2.00
3 or more 1.75

TREE ROSES

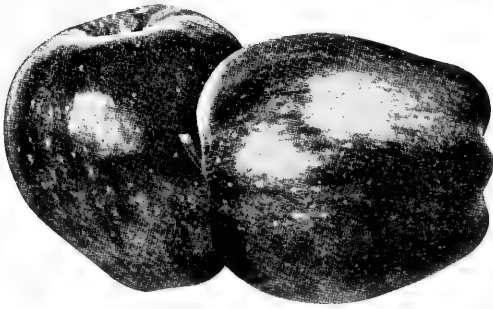

Christopher Stone (Red) — Grafted on 38-inch standard each \$6.00

FALL VARIETIES

↖ **Wealthy**—Deep red, flesh white, very juicy. Owning to its adaptability to cold climates and early bearing habit, makes it a very popular apple. The best of its season—September.

WINTER VARIETIES

↖ **Red Delicious**—A handsome winter apple of exceptional keeping qualities. Flavor very mild, almost sweet, juicy. Tree vigorous, prolific, early bearer. Extremely hardy. Good commercial variety.

Delicious

- ✓ **Yellow Delicious**—Sensational! Youngest and heaviest bearer. Finest flavor. Excellent for home use and market. Keeps all winter. Wonderful pie and baking apple. Hardy—bears juicy, rich flavor until spring.
- ✓ **Grimes Golden**—An old favorite, still deservedly popular. Dependable and productive bearer. One of the best yellow winter apples. Extremely hardy. Bears young. Invariably brings highest price in all markets.
- ✓ **Jonathan**—For years the standard of quality by which others have been gauged. Grand good winter apple. Bright, solid red. Flesh white; firm, crisp and tender. A splendid family sort and highly profitable for market. Will keep well without special care; also stands much handling.
- ✓ **Winesap**—The best keeper of the solid all-red winter apples. Big, beautiful, delicious fresh or cooked. Grown everywhere with grand success. In big demand for shipping, drying, freezing, baking, pastry—EVERYTHING. A perfect all-round apple.

CRAB APPLES

- ✓ **Hyslop**—Smaller than other apples and do differ because they are decidedly acid. For this reason they are desired for preserving. Crab apple jelly is unsurpassed for both color and flavor.

SMALL IN SIZE BUT BIG IN CROPS

DWARF FRUIT TREES

Bear full size fruit.

Dwarf Apple Trees—

In one or two years after planting, these low-growing, dwarf trees bear standard size apples, and now you can have a miniature orchard by spacing these "little fellows" about 10x10 feet. Originated in England, these trees ALWAYS stay dwarfed and come into bearing very soon after planting.

Dwarf Red Delicious	Mall IX
Dwarf Yellow Delicious	Mall IX
Dwarf Jonathan	Mall IX
Dwarf Yellow Transparent	Mall IX
	Each
Price	\$4.50
3 or more	3.75

MULTIPLE APPLE

✓ **5-In-1 APPLE**—Scientifically budded to produce five kinds of apple varieties—Red Delicious, Jonathan, Grimes Golden, Yellow Transparent, and Stayman—all on one tree. If your space is limited, plant one or two of these trees. THEY CROSS-POLLINATE THEMSELVES.

Each	
Price	\$4.50
3 or more	4.00

DWARF PEAR TREES

Full size, top quality pears grow on these dwarf trees. Lovely as a flowering tree, they are both decorative and beautiful.

Dwarf pear trees are also a very valuable addition to any lawn or garden. Like the apple, it is a low-growing tree. Fruit is easily accessible from the ground and the fruit is large standard size. Approximately 15 feet at maturity. Plant 12 feet apart.

Bartlett	Each
Duchess	
Price	\$3.25
3 or more, each	2.75

DWARF CHERRIES

✓ **Dwarf Cherry North Star**—A cross between a very hardy Siberian Cherry and an English Morello. The fruit is a bright red, changing to mahogany red. Ripens July 5th to the 10th. Promises to become a leading commercial variety.

Each	
2-year	\$3.50

PEACHES

4 to 5 feet, each	\$2.25
-------------------------	--------

A DEPENDABLE TEAM OF TIME-TESTED FAVORITES

✓ **Elberta (Yellow Freestone)**—The great market Peach, midseason. Very large, golden yellow with a red cheek. Tree is very productive, yields large quantities of uniform, highly-colored fruit. Can be shipped or hauled to distant markets. Exceedingly PROLIFIC.

✓ **Early Elberta**—About a week earlier than Elberta, with all its good qualities. A special strain of Early Elberta that we have fruited for years and subjected to every test and found it a moneymaker wherever grown.

✓ **J. H. Hale**—In size, color, texture, flavor, keeping and shipping qualities, it is the "GIANT OF PEACHES." Excellent freestone "Million Dollar Peach."

✓ **Belle of Georgia**—Large attractive, white Peach with red cheek. Delicious flavor; one of the best market varieties. Very hardy and easy to grow. Home canners prefer Belle, and for some time it has been recognized as the best all-round white Peach on the market. Belle ripens midseason; large size free stone.

✓ **Hale-Haven**—A large new yellow freestone developed by crossing J. H. Hale and South Haven. Its high color even before complete ripening, gives it great market value because of the advantage of premature picking, packing and shipping without loss. Ready 2 weeks before Elberta.

PEARS

4 to 5 feet, each\$2.25
 3 or more, each 1.75

↘ **Bartlett**—Large size, with a beautiful blush next to the sun. Buttery, very juicy, and high flavored; the tree is a strong grower and a young and abundant bearer. August and September.

↘ **Duchess**—Very large, greenish yellow; fine flavor, heavy bearer. October and November.

PLUMS

Price, each\$2.50
 3 or more 2.00

↘ **Abundance**—Good quality; fine flavor; season September. Trees grow large and bear heavily. Red.

↘ **Burbank**—Large cherry-red; flesh amber yellow with rich sugary flavor. High quality, very productive.

↘ **Green Gage**—Small yellowish green; flesh pale green, melting, luscious, standard of excellence. Mid-August.

↘ **Yellow Egg**—Large and beautiful yellow; a little coarse but excellent for cooking. Late August.

↘ **Damson**—Most popular "Little Blue Preserving Plum." When canned the juice is rich wine-purple and highly flavored. Flesh is firm and green. Small stone, very hardy. A wonderful shipper and a prolific yielder. Self pollenizing.

↘ **Stanley**—The best of all Prune-type Plums. Large to medium size; flesh greenish yellow, juicy firm. Good for drying and excellent for eating when allowed to fully ripen.

SWEET CHERRIES

9/16 inch caliper, each\$3.00
 3 or more, each 2.50

↘ **Black Tartarian**—Very large purplish, black; tender juicy, rich; vigorous grower and producer. June. This is the outstanding sweet cherry in our territory.

↘ **Windsor**—Fruit extra dark, bordering on black, large and attractive. Flesh is hard, meaty, and pleasing to the taste. Fine for canning, table and market. Being a late, sweet variety, it always has a ready market. Ripens late July.

CHERRIES

Price, each\$3.00
 3 or more, each 2.50

↘ **Montmorency**—"The Universal Favorite" fruit, large and of best quality; ripens in late June but remains on trees in good condition well into July. Trees bear young; hardy and highly productive. The leading sour cherry for commercial planting.

↘ **Early Richmond**—The earliest sour cherry-season June; medium size and good flavor. Trees are heavy producers. An excellent variety for home use and local markets.

APRICOTS

Price, each\$3.00
 3 or more, each 2.50

↘ **Superb**—The best flavored, most productive Apricot yet produced. Medium size, light salmon color, excellent quality. Ripens last of July.

QUINCE

↘ **Orange Quince**—Large, roundish, short neck; golden flesh of excellent flavor. Highly regarded for preserves and jelly. The hardiest of all quince, and unquestionably the leading commercial variety. October.

SMALL FRUITS

GRAPES—2 Year No. 1

Luscious, all colors and flavors

↘ **Concord (Blue)**—The most widely-known and planted blue grapes. Superior in hardiness, productivity and regularity in bearing, and in ability to withstand disease and insects. The leader for making grape juice. Each

Price\$.45
 3 or more35

↘ **Fredonia (Early Blue-Black)**—A new very early grape, originated and tested by the New York Experimental Station. Ripens with Portland. The bunch and berry are large with excellent flavor. Excellent shipper, does not crack. This grape fills a long-felt need—a juicy, delicious black grape that ripens early. Vine vigorous and productive. One of the best new varieties.

Price, each\$.40
 3 or more, each35

↘ **Niagara (White)**—The standard white. Larger bunches and berries than Concord, as good or better quality. Productive, vigorous, adaptable. Ripens with Concord. Each

Price\$.40
 3 or more, each35

↘ **Portland (Early White)**—A new white grape. Ripens earlier than any other known grape, which permits it being planted over a wide range of territory. Berries large, and have beautiful yellowish color like the Niagara. All the truly good qualities desired in a grape are incorporated in it. Quality excellent, equal to the Niagara and other later grapes. It contains much sugar and can be eaten before it is fully ripe. Vine hardy and productive. You will be pleased with this grape. Each

Price\$.60
 3 or more, each50

↘ **Red Amber (Red)**—This very productive, amber red variety was originated at the Minnesota Fruit Breeding Farm. The sweetest and most highly-flavored of the hardy Grapes. Quality very good for cooking and eating. Each

Price\$.80
 3 or more, each70

↘ **Caco (Early Red)**—A new variety of extremely rich flavor. It is a cross between the Catawba and Concord, with all the good qualities of both. Ripens early.

Price, each\$.50
 3 or more, each40
